

**DASHWOOD**  
PINOT GRIS

WINEMAKER'S SELECTION

Great wine is so much more than just fermented grape juice; it is an alchemy in which unique terroir and skilled winemaking unite. At Dashwood, we create wines that are true reflections of New Zealand's Marlborough region. They are as cool as the winds that whip through our valleys each day and as imposing as the towering mountains that frame our vineyards.

**OUR HOME**

Marlborough is a special place for wine. Perhaps it's our cloudless skies or mild temperatures or well-drained soils. It could be our long growing season or our sustainably-farmed vineyards. Whatever the reason, the result is wines that are marked by piercingly vibrant fruit flavours and lively acidity.

**PRESERVING OUR LAND**

We have been tending vineyards and making wine in Marlborough for over twenty years. Our home is important to us, and we see our role as a caretaker of this part of the world. We strive to minimise or eliminate any activities that are wasteful or harmful to the environment so that future generations can continue to enjoy our extraordinary landscape.

**OUR WINEMAKING**

With every step of the winemaking process our goal is to preserve the incredible aromatics and scintillating structure of our wines. After harvesting, we keep the fruit as cool as possible to retain bright, fresh Marlborough fruit flavours. Gentle crushing and cold fermentations help to preserve the personality of the variety and the influence of the site. Our Pinot Gris is kept in stainless steel tanks to maintain zesty fruit characteristics.

Sam Kim, January 2018

5 Stars & 93 Points

Beautifully ripe and elegantly fragrant, the bouquet shows white nectarine, fresh pear, rockmelon and lemon peel characters with subtle floral lift. The palate is equally attractive, displaying pristine fruit flavours and vibrant mouthfeel, finishing long and very tasty. At its best: now to 2019.

THE FLORAL SYMBOL ON OUR WINE LABELS IS THE POHUTUKAWA, A MAORI WORD MEANING DRENCHED WITH MIST. IT IS AN EVERGREEN TREE KNOWN AS THE UNOFFICIAL NEW ZEALAND CHRISTMAS TREE DUE TO ITS BRIGHT RED BLOOMS THAT EMERGE EVERY DECEMBER.
